Features

Duo Cooling

DuoCooling independent refrigeration systems provide precise temperature control and superior performance, efficiency and food preservation.

Bio Fresh

Preserve just-bought groceries for optimum food freshness, while sealing in flavors and maintaining essential vitamins and minerals.

Power Cooling

The fan – as powerful as it is quiet – distributes the cold air efficiently throughout the entire refrigeration compartment.

Light Tower

Enjoy an optimally illuminated interior: the LightTower shows off your food and is positioned so that your fully stocked refrigerator is illuminated at all times. The flush mounting of the LightTower in the side walls means there is also more space for your food.

Fish & Seafood Safe

Love fish? Your Liebherr keeps fish fresh! The Fish & Seafood Safe stores fish and seafood at the optimum temperature of 28° F (-2°C) zone as much as you want - and store the remaining meat and dairy products at the optimum 32° F (0 °C).

Vario Temp

VarioTemp means you have plenty of scope when storing food in your fridge freezer. This is because you can also set the accurate temperature in the freezer compartment in a range between 28°F to 57°F (-2°C to 14°C) – and therefore also use this compartment as a further cooling zone.

Smart Device Box

Want to be prepared for the future of the Smart Home? The SmartDeviceBox can be installed in just a few steps and will open up the whole world of digital possibilities to you today.
