BRITAIN'S MOST FAMOUS LOUDSPEAKERS

## WHARFEDALE NEW STANDS

Wharfedale is proud to release a series of quality speaker stands to enhance the already exceptional sound quality of its wide range of bookshelf speakers.

A perfect speaker stand is required to raise the high frequency drivers of bookshelf speakers to ear level for ideal vertical dispersion, couple the speaker to the floor to drain away vibrations of any kind and decouple the speaker from the floor to prevent any vibration feedback from contaminating the audio chain. The WH-ST1 and WH-ST2 stands serve all purposes thereby resulting in an almost holographic soundstage and exceptionally wide dynamic range.

Hear them and convince yourselves!

### Specification:

| WH-ST1   | WH-ST2                                       |
|--|--|
