

Roosevelt Eurotop SLS524

IceTech™ Cooling Fabric

- Our COOL Tech fabrics are engineered to transfer heat away from your body, making you feel cooler and more comfortable assisting for a restful night's sleep.

Safe Slumber® Fire Retardant Fibers

- Meets or exceeds 15 international standards including 16CFR part 1633. A non-toxic, healthy and safe sleep environment free of harmful chemicals.

DualComfort™ Foam w/Gel

- Medium firmness layer to transition from support layers to comfort layers| Active feel features that respond quickly to movement and body adjustments.

ComfortSoft™ Foam

- Plush comfort-layer foam used in mattresses to enhance surface softness and pressure relief. It gently cushions the body, helping to reduce pressure points at the shoulders, hips, and joints while promoting a more relaxed, comfortable sleep feel.

QuantumEdge™ Individually Wrapped Coil

- High-Density individually wrapped coil system with individually fabric-encased coils, which allow for an independence of each coil to conform, support, and separate movements of the sleeper. This provides a more restful and refreshed sleep experience.

Mattress Height 13"

10 Year Full Warranty

Proudly Handmade in the USA Since 1883
