

SA-15S2 Limited
Super Audio CD/CD Player
w/digital input

For those driven by a search for the best in home music, the Marantz SA-15S2 Limited offers Reference Series reproduction of all your treasured Compact Discs and Super Audio CDs. The Limited is infused with audiophile-grade components, re-voiced for greater speed and harmonic balance, and boasts a gorgeous, black anodized aluminum enclosure. A Marantz designed, linear power supply anchors this premium component with an outsized toroidal transformer to provide the voltage stability and freedom from noise that are necessary for the very best audio performance. An advanced transport mechanism employs resonance-resistant Xyron (composite) components and is mounted to a heavyweight aluminum billet base. The SA-15S2 Limited utilizes the superb Cirrus Logic CS4398 high-current DAC with 24-bit/192 kHz resolution for music reproduction with the speed and immediacy of a live performance; selectable interpolation filters allow for a slight tailoring of the response to suit individual systems, while an optical input allows for the use of external digital sources. Special audiophile-grade decoupling capacitors help deliver crisp, clean power to these all-important DAC stages for enhanced transparency and a jet-black background. HDAM SA2 modules are utilized throughout the analog output stage for wide dynamic range and the best possible fidelity. Audiophile-grade copper foil film capacitors and metallic film resistors are employed at critical points in the topology to further enhance performance.

- Marantz Custom SACDM-10 Disc Mechanism
- Reads SA-CD (Stereo), CD, CD-R/RW (MP3/WMA/CD-DA)
- Selectable Digital Filter
- Cirrus Logic D/A – CS4398
- Marantz HDAM-SA2 Circuits
- Large Double Shielded Toroidal Transformer
- Optical/Coaxial Digital Outputs
- Optical digital input for DAC mode (up to 96kHz)
- Zero impedance copper ground plate
- Discrete High Current Headphone Amp
- Machined Brass Analog Output Jacks
- Digital Out is Defeat-able for Low Noise
- LCD Display
- Detachable Power Cord

because music matters
