

MARBLE TOPS CARE INSTRUCTIONS

Use coasters under all glass, particularly those containing alcohol or citrus juices. Many common foods and drinks contain acids that will etch or dull the stone surface.

Blot up spills immediately.

Do not place hot items directly on the stone surface. Use trivets or mats under hot dishes and placemats under china, ceramics, silver or other objects that can scratch the surface.

Cleaning Procedures and Recommendations:

Clean stone surfaces with a few drops of neutral cleaner, stone soap (available at hardware stores).

Use a clean, soft cloth for best results.

Do not use products that contain lemon, vinegar, or other acids, on marble.

Rinse the surface thoroughly after washing with the soap solution and dry with a soft cloth.

A good quality marble wax or non-yellowing automobile paste wax can be applied to minimize water spotting.
