

Bedbeam II™

Platform Bed Support System

Superior support for today's heavier bedding with turn and lock technology.

Wide attachment ends secure to side rail cleat.

Sliding ends allow 4 inches of total bed width adjustment.

Drop and Lock technology.

Simply insert the correct leg extension, slide the leg down to the floor and turn 90 degrees to lock. With height adjustments ranging from 5 to 18 inches, the Bedbeam II fits any wood bed frame.

Reinforce your wood slat supports with the Bedbeam II System.

By installing the Bedbeam II system under your slat system, your wood bed achieves premium strength.
