Product Description: Traditional with a twist, the Sutter Computer Credenza is crafted of Cathedral Oak Veneers with a classic silhouette and a casual clear Oak finish with champagne-colored pulls and knobs. With one door on the right, the desk has one adjustable shelf and one pullout adjustable shelf behind the door. There are five drawers including the top left and right drawers with full extension metal ball bearing slides, removable pencil tray, removable writing slide and removable partitions. The left middle drawer is on full extension metal ball bearing slides and has removable inserts. Left bottom drawer is a locking file drawer with pendaflex filing system on full extension metal ball bearing slides. Center drawer has a drop-front and cutout for wire management for keyboard use. A power supply on top. Desk top area above the center drawer pulls out for added work surface.

Collection Features: The Work Your Way program focuses on the new reality many consumers face as they continue to do much of their work from their homes. Available in five design styles, the program offers an assortment of key home office pieces for a variety of spaces & whether a dedicated executive home office or a more casual workstation. Ranging in scale and functionality, all of the groups within Work Your Way include an executive desk, a junior executive desk, credenza and hutch and a bookcase.

Levelers

Material: Cathedral Oak Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
