Product Description: With an architectural, craftsman-like quality the Elon Two-Door Cabinet is crafted of Flat Cut Walnut Veneers in a satin medium wood finish. Build your own configuration, as the cabinet can be bunched with other 1650 Elon office items or used as a desk base. There are two adjustable wood shelves behind the two doors with soft-close hinges. Levelers included.

Collection Features: How refreshing is it when furniture flexes to your room, your needs and your lifestyle? That's the beauty of our functional modular office groupings. These hard-working configurable work stations and bookcases create a custom built-in cabinetry look.

Features: Two doors with soft-close hinges

Two adjustable wood shelves

Levelers

Can be bunched with other 1650 Elon office items or used as a desk base

Material: Flat Cut Walnut Veneers

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
