Ventilated Foam   **Antimicrobial**   **Liquid Repellent cover**

Integrated Support Frame

Support Frame

The proprietary support frame offers unequaled support and makes our mattress truly one of kind.

Spill Proof

The soft, liquid-proof cover wraps the mattress and offers extra protection.

Ventilated

The top layer is made from Ventilated Viscoelastic Hybrid Foam, which allows air to circulate, keeping you cool while adapting to your body temperature.

Antimicrobial

The top layer is anti-microbial. It provides a healthier sleep by inhibiting the growth of bacteria.

The Polysleep Classic features a **Premium Antimicrobial Hybrid Foam**. Measuring 10", it utilizes **3 layers of foam** to offer extra support and comfort. Our **proprietary integrated support frame** is unique to Polysleep. This dense foam perimeter frame offers **unparalleled edge-to-edge support**, and doesn't flatten out when you sit on it. The Polysleep Mattress is wrapped in a soft **liquid-repellent cover** that protects your mattress against any accidents.
