

HydroTap Cube Plus BC Tap

Product Spec Sheet

HydroTap Cube Plus Boiling/Chilled (BC) Tap

Elevate your home hydration with the HydroTap Cube Plus BC Tap and enjoy instant access to filtered boiling and chilled water from the tap.

The HydroTap Cube Plus offers a contemporary twist on a classic with its angular square shape which is softened by its rounded corners.

This tap style can be installed over the sink as a secondary tap or over our optional design range font/drip tray. The HydroTap Cube Plus tap is available in six different finishes from a classic chrome to a modern gunmetal.

HydroTap Cube Plus BC Tap

Product Spec Sheet

Installation Requirements

The HydroTap is a pump-driven system so the installation of the Tap must be within 3' (0.9m) of the base command center. Installation on most countertops is straightforward however, some stone countertops may require a specialized cutting service.

If using a drip tray (font) accessory, suitable drainage to a trapped waste is required within 3' (0.9m) of the installation. Sufficient space and clearance to install the HydroTap as detailed in the product installation guidelines is required.

Installation and connection of your HydroTap must be carried out by a qualified person, observing all local, state, & federal regulations.

HydroTap 120V BC G5 Command Center

Product Spec Sheet

Installation Requirements

Installation and connection of your HydroTap must be carried out by a qualified person, observing all local, state, & federal regulations. You will require suitable 110-120V 50-60Hz, 15 amp power supply with a NEMA 5-15 electrical outlet within 5' 9" (1.75m) of the product.

The HydroTap is a pump-driven system so the installation of the Tap must be within 3' (0.9m) of the base command center. The HydroTap is an air-cooled system so discrete cabinetry cut-outs are required for ventilation. Installation on most countertops is straightforward however, some stone countertops may require a specialized cutting service.

If using a drip tray (font) accessory, suitable drainage to a trapped waste is required within 3' (0.9m) of the installation. If you live in an area with hard water (more than 150ppm), we recommend installation of a scale filtration kit or a water softener. Sufficient space and clearance to install the HydroTap as detailed in the product installation guidelines is required.
