

FREIBURG

CORNER DESK | CM-DK406WN

DETAILS:

A wooden frame and metal base harmoniously blend to fit your space. The matte gold finish, with its simple shape and dainty silhouette is in striking contrast with the darker tones of the frame. Front panels are adorned with patterns that conceal the drawer, which open smoothly on ball-bearing glides. To further expand the piece, the right side desk has a lift-top mechanism that allows any health-conscious worker at home unparalleled productivity.
