Product Description: A case crafted of Walnut Veneers with glass and silver leaf doors creates a modern yet timeless and elegant piece with the Lloyd's Leopard Entertainment Credenza. The Walnut Veneers are in a rich wood finish, with five painted silver leaf glass-front doors, soft-close hinges and magnetic touch latches. There's one drawer behind the center door, and one adjustable shelf behind the left and right pairs of doors. The drawer creates one fixed shelf behind the center door. Accommodates up to an 80-inch TV.

Collection Features: Come closer to Melange, and you will discover something unexpected, an eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces.

Status: Active

Max TV Size: 80" Flat Screen

Finish: Walnut veneers with silver painted glass front doors.

Features: Five painted glass-front doors with soft-close hinges and magnetic touch latches

One drawer behind center door

Drawer creates one fixed shelf behind center door
One adjustable shelf behind left and right pairs of doors

Material: Walnut Veneers, Glass and Silver Leaf

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
