TruHue™

A bright idea: customize your hood's light to harmonize with the rest of your kitchen's lighting at the touch of a button—from 2700K, 3000K, 3500K, 4000K to 5000K.

Zephyr Connect App

Zephyr Connect App allows you to control your range hood from anywhere using your mobile device. It includes real time diagnostics and provides important product information. All you need is a WiFi connection with access to the internet. It seamlessly integrates with your smart devices such as Amazon Alexa or Google Home smart speaker for voice activation. Available to download from Google Play or the App Store.

DID YOU KNOW?

The Perimeter Aspiration System (PAS) moves airflow away from the central area of the hood and evenly distributes it through narrow openings around the perimeter of the hood. This ventilation method increases air velocity and improves the capture of cooking contaminants.
