Type: Cabinets, Curio Cabinets

Category: Casual Dining

Collection: Ashby Place

Number of Shelves: 5

Style: Transitional

Finish: Whites/Creams/Beiges

Brand: PFC

Product Description: Elegant and welcoming, the Ashby Place 2-Door Display Cabinet enhances the aesthetic appeal of any space. This piece features a tall rectangular silhouette with glass side panels, providing maximum visibility of the items displayed inside. Behind two glass doors are four adjustable framed glass shelves and one removable framed glass shelf, offering customizable storage to accommodate items of different sizes. Two LED lights illuminate the displayed items and create a visually stunning effect, while a touch switch allows for easy operation. The clean-lined silhouette is adorned with shaped molding and nickel-finished metal accents, creating a timeless yet modern look that complements several interior styles.

Collection Features: Ashby Place displays a sophisticated chic feel with comfortable classic silhouettes, making it suitable for various interior design styles. Quartered ash veneers finished in a soothing neutral gray complement the cool, clean marble and soft silver metal accents. This collection brings a sense of refinement and character to any living space, creating a cohesive and inviting aesthetic.

Status: Active

Finish: The neutral finish seamlessly blends into various design schemes, working well with bold or neutral color palettes

Features: Transitional, chic styling combined with classic elements emphasize simplicity and understated elegance. Features two glass doors, four adjustable framed glass shelves, one removable framed glass shelf, and two LED lights with a touch switch, making this cabinet a versatile and eye-catching addition to any room in your home. Metal ferrules and hardware in a nickel finish add a touch of sophistication to the overall design.

Material: Ash Wood Veneers

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat.

and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
