

430W OW SERIES

3.5" 2-WAY FULL RANGE ON-WALL LOUDSPEAKER - 1.5" DEPTH

(1) 1" (25 mm) Soft Dome Tweeter

(2) 3.5" (89mm) Aluminum Woofers (Active/Passive)

The On-Wall series of speakers is exactly what you'd expect from James Loudspeaker, high quality audio and durability in a sleek, versatile, on-wall design. The 430w is just one of these multi-use speakers. Boasting an ultra-slim design at only 1.5" this speaker easily integrates into any environment. With the James high excursion proprietary woofers, and a neodymium silk dome tweeter, this compact speaker offers silky smooth response across a broad range of frequencies from 22kHz all the way down to below 90Hz. This versatile speaker pairs perfectly with the James SPL3 series to provide a compact, ultra-slim surround sound system, delivering crystal clear audio with minimal visual impact. It can also easily be used as a standalone on-wall or bookshelf speaker with or without a companion James subwoofer.

The 430w is constructed entirely of aircraft grade aluminum for strength, sonic performance, and durability, and includes a stainless steel perforated grille to provide years of trouble free use. Blind through holes are incorporated into each speaker for wall mounting or brackets can be purchased separately. For outdoor/marine applications order the 43UE.
