ring Mailbox Sensor

Key Specifications

Motion Detection
120° radius up to 15 ft distance

Power
3 AAA-cell Batteries (not included)

Dimensions
Motion Detector: 65 mm x 62 mm x 37 mm
Antenna: 65 mm x 65 mm x 6.2 mm

Features
Motion-Activated Notifications
Weather Resistant

The Ring App is required for setup and is compatible with iOS and Android Devices

WORKS WITH
alexa

Add-ons:

Ring Bridge
The Ring Bridge is the central point for connecting all Ring Smart Lighting products. It enables smart lighting control from anywhere using the Ring app and lets Ring Smart Lighting products interact with other Ring products for enhanced security.

Ring Video Doorbell
Your Ring Video Doorbell can be connected to your Mailbox Sensor through the Ring App to enable recording when your mailbox is opened.

Voice Assistant
Link Mailbox Sensor to select Alexa-enabled devices using the Ring Bridge to hear notifications whenever your mailbox is opened or detects motion.

Frequently Asked Questions

What happens if I don't have the Ring Bridge?
The Ring Bridge is required to enable smart controls and notifications for Ring Smart Lights, pair Ring Smart Lights together, and connect them to Ring Doorbells, Cameras and select Alexa-enabled devices.

Without the Ring Bridge, Ring Smart Lights will shine as soon as motion is detected or the light is turned on, but you won't be able to customize your settings. You will also not be able to pair your Ring Smart Lights into groups, receive notifications, or connect other Ring Smart Lights to other compatible Ring or Alexa-enabled devices.

I have a shared mailbox. Can I use this in my box?
We do not recommend using this in a shared mailbox. A Ring Bridge is also required to receive notifications, and may not reach a mailroom in a residential building. Please reach out to your HOA for rules and regulations.

Mailboxes are frequently damaged or stolen, will Ring replace my sensor if someone damages my mailbox?
Yes. Ring has a Theft Protection policy and will replace a stolen or damaged device. Visit support.ring.com for more details.

Do I need a Ring Protect subscription to use the Ring Mailbox Sensor?
No, Ring Mailbox Sensor provides smart control functionality with or without a Ring Protect Subscription.
