TEMPEST TORCHES & LANTERNS

Crafted to evoke a captivating atmosphere, these striking gas torches and lanterns boast mesmerizing spiraling flames, thanks to a patented design that harnesses a natural venturi effect of fire, eliminating the need for electricity or a fan.

Take your pick between the sleek transitional aesthetics of the Stainless Steel Tempest Torch or the timeless charm of the Tempest Lantern.

Regardless of your choice, all models offer versatility with four installation options: Ground Post, Deck Post, Pillar Mount, or Wall Mount, allowing you to seamlessly integrate them into your hardscape design.

FIRE GARDEN

BUILT TO BE THE BEST

BOLD BEAUTIFUL FLAME.

All the time. In all weather. You can count on a gorgeous dancing flame that is sure to enhance all your outdoor moments.

HEAVY-DUTY STAINLESS STEEL CONSTRUCTION is resistant to corrosion, heat, and weather elements, ensuring long-lasting performance and peace of mind.

Right: A closer look at the heavy-duty stainless steel construction

Our strategically placed **PRE-VALVE WEEP PORT** allows water to drain away from the burner, eliminating potential damage from water and ice.

OPTIONAL LINEAR BURNER WIND GUARD

3/8" THICK TEMPERED GLASS WITH CHROME HARDWARE.

Our glass is *TWICE* as thick as the standard. Our robust chrome hardware is resistant to corrosion and the elements.

Reflections of flame and light enhances your view of the fire while shielding the flame from wind.

IGNITION OPTIONS

ALL-WEATHER 24V HOT SHOT™ ELECTRONIC IGNITION

Industry-Leading Reliability: The All-Weather 24V Hot Shot™ Electronic Ignition is the most robust and dependable system available for outdoor fire features.

Debris-Resistant Performance: Unlike traditional spark igniters, our hot surface igniter maintains consistent ignition—even in the presence of pine needles, leaves, and water.

Built-In Safety: Features a gas shutoff that automatically stops gas flow if the flame is extinguished by wind or weather.

PULSE IGNITION

Push-Button Convenience: Pulse ignition systems use an integrated spark module to electronically ignite gas at the burner with a simple push of a button.

Reliable Ignition: A rapid series of high-voltage sparks ensures consistent flame ignition—no matches or lighters required.

Battery-Operated Flexibility: Ideal for outdoor fire features in locations without electrical access, offering easy installation and dependable performance.

Built-In Safety: Features a gas shutoff that automatically stops gas flow if the flame is extinguished by wind or weather.

MATCH LIGHT IGNITION

Manual Operation: Gas is delivered to the burner via a manual valve and ignited using an external flame source such as a match or lighter.

No Power Required: Operates without a pilot assembly, wiring, or control module—ideal for installations without electrical access.

Durable & Low Maintenance: A straightforward ignition method designed for long-term reliability and minimal upkeep in outdoor environments.

*Available for 36" Linear Fire Pit Burner and 25" **Voracious Fire Pit Burner***
