Frans Tall Cabinet Brown

Fabric-inset doors trade solid panels for soft texture, giving the Frans tall cabinet warmth and a grounded stance. A solid oak frame wraps each door in profiled moulding — a classic, well-crafted detail that frames the front with quiet precision. Mid-tone brown meets deep dark brown fabric panels for a layered, tonal look, while a stepped plinth base lifts it visually. Tall enough to double as a wardrobe, so storage stays as flexible as the room.

- Doubles as a Wardrobe: A tall silhouette with fabric-inset doors brings warmth and texture to the front while offering enough height to work as a wardrobe.
- Solid Oak Frame: A solid oak frame anchors the body in a mid-tone brown, paired with deep dark brown fabric panels for a layered, tonal finish.
- Profiled Moulding: A profiled moulding traces each door panel, a classic detail that gives the front a considered, well-crafted feel you notice up close.
- Stepped Plinth Base: A stepped plinth base lifts the silhouette for visual lightness, so a tall storage piece feels grounded yet easy in the room.
