Originally formulated to absorb the G-Force of NASA astronauts travelling into space and then perfected by Tempur-Pedic for sleepers—it's as comfortable and supportive as it is iconic.

# ORIGINAL TEMPUR®

Proprietary TEMPUR® material provides advanced adaptability that automatically responds to your body temperature, weight and shape for truly personalized comfort and support.

# WHY TEMPUR-PEDIC®?
# **CONTINUOUS INNOVATION.**

TEMPUR® Technology is a proprietary, one-of-a-kind material that we've evolved for decades to precisely adapt to your unique body, reduce motion transfer, and relieve pressure points.

Unlike ordinary memory foam, TEMPUR® Technology's precision-engineered cellular structure immediately and precisely adapts to your weight, shape, and temperature. Your body heat causes the material to soften as it continuously adapts to your shape while you sleep.
