

A Smarter Way to Do Laundry

Benefits of pureWash Pro X2

Saves Money with Every Wash

Use Little to No Detergent

Eliminates Bacteria & Mold

Cleans with Cold Water

Hospital Proven Process

Reduced Skin Irritations

The Features

Proven, Patented Technology

Independently tested and scientifically proven to work effectively, yet gently. pureWash Pro uses a patented, oxygen-infused water process that increases cleaning strength using 75% less detergent.

Quick & Easy Install

Install pureWash Pro yourself in under 20 minutes. Simply connect to the local power outlet, the cold water source in your laundry room and the washing machine.

Automatic Operation

pureWash Pro operates automatically with your wash cycle to fill the basin as needed, allowing you to wash your laundry without any extra steps or effort.

Household Cleaning Spout

In addition to cleaning your clothes, pureWash Pro provides you with an option to use the purified water outside of the laundry. Use this to clean your floors, wash the dog, or even water your plants.

X2 - The Next Generation

Building on the Success of pureWash Pro, with X2, the future is now.

- New Plumbing Assembly with Fiberglass Reinforced Polypropelene
- Intelligently Controlled Ozone Generator for Consistent Output
