Product Description: The Brixton Mobile File is a versatile office storage solution that blends modern design with functional storage. Crafted from elm veneers, its two-tone finish of pebble-hued wood and ivory leathered drawer fronts gives a sleek, contemporary aesthetic. The mobile file features one locking file drawer, a utility drawer, and hidden storage with a drop-down touch latch, perfect for organizing your home office essentials. Its casters ensure mobility while keeping your office space clutter-free.

Collection Features: The Brixton Home Office Collection is a thoughtfully designed trio featuring elegant, curved waterfall silhouettes that give the collection a sleek and contemporary aesthetic. The two-tone finish pairs soft, elm veneers in a pebble hue with door and drawer fronts in a contrasting ivory with leathered texture.

Rounded top corners
Casters

Material: Elm Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

Important Use Information: We are not responsible for damage to carpets, rugs or other makes and models of flooring caused by caster use.
