SKU: P348302

Availability: In Stock

Type: Cabinets, Buffet Cabinets

Category: Casual Dining

Collection: Revival Row

Number of Shelves: 5

Number of Drawers: 3

Style: Traditional

Finish: Dark Wood

Brand: PFC

Product Description: Inviting and intriguing, the Revival Row 3-Drawer Buffet with Cabinet Doors combines functionality and aesthetics. The buffet features a warm brown finish and three storage drawers designed with custom knob hardware in an antique copper finish. One shelf behind the two center doors offers concealed storage while shelving behind glass doors and glass side panels allows you to display your favorite collectibles, books, or decorative pieces. This piece blends functionality and contemporary design, creating an elegant and versatile addition to your living space.

Collection Features: This collection gathers elements of traditional English and French designs, casualized for the modern consumer by its updated finishes and functional scaling. Capitalizing on the familiarity and interest of these rich histories, this collection of items, including both suited and individual pieces, is a compilation of two distinct but complementary lifestyles.

Status: Active

Finish: The Village Lane finish brings warmth and authenticity

Features: Traditional style and modern scale effortlessly bridge the gap between the past and the present

Three drawers and shelving behind doors provide ample storage to keep your items neatly tucked away and organized

Features a breakfront design with glass doors and panels on each end to showcase your favorite collectibles

Material: Hickory Veneers

Drawer Construction: French and English Dovetail Drawer Construction

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
