Brand: PFC

Product Description: Add stylish storage in a compact footprint to your kitchen or dining area with this Kitchen Curio. Casual and functional, the cabinet features cubby wine storage and a combination of open and enclosed shelving options. A power outlet, USB port, and electric chord accommodate small appliances or can serve as a charging station. This cabinet caters to the needs of an organized and efficient kitchen space.

Collection Features: Our premium cabinets are the ideal solution for creating sophisticated and inviting spaces. With features like adjustable shelves, built-in wine racks, and glass doors, these pieces are perfect for showcasing fine china, glassware, and wine collections, while also keeping them easily accessible. Expertly crafted with attention to detail, our cabinets offer aesthetic appeal and practical utility, enhancing the overall design of any space.

Status: Active

Finish: The natural wood finish complements a warm, homey atmosphere

Features: Offers a simple, yet timeless appeal to your space. Features a variety of storage options, including one drawer, a cabinet at the top with an adjustable/removable shelf behind a glass door, a cabinet at the bottom with an adjustable/removable shelf behind a door for concealed storage, open display areas with removable/adjustable and stationary shelves, bottle storage, and cord access to power up small appliances. Antique brass finished hardware adds a touch of vintage elegance and timeless charm.

Material: Oak Wood Veneers

Drawer Construction: English Dovetail Drawer Construction

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces.

These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
