Product Description: Elevate your living space with our Wade Wall/Accent Mirror, exuding modern sophistication. Crafted with oak veneers and beveled mirror glass, its natural light oak finish adds warmth and elegance to any room. Versatile in design, it can be hung vertically or horizontally, making it a perfect addition to your living room décor. Our meticulous multiple-step finish process ensures durability and richness in color, promising a touch of luxury that lasts.

Status: Active

Finish: Natural light oak finish

Features: Beveled mirror glass

Natural oak finish Rectangle shape

Can be hung vertically or horizontally

**Material:** Oak Veneers and Glass

**Finish Construction:** M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship

such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: M uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
