Microwave-Convection Combination Cooking

Microwave energy and convection heat work together to reduce cooking time while still browning food on the outside and maintaining moisture on the inside.

Stainless Touch Control

The stainless LED touch control panel is carefully designed to be as stylish as it is functional.

Sensor Cooking

The oven's sensor tells the microwave oven how long to cook depending on the amount of humidity coming from the food.

Wi-Fi Enabled

Stay connected with your microwave from anywhere, with cooktop status and remote recipe setting. You'll also be able to ensure everything is running smoothly with Smart Diagnosis.

Innovation

Wi-Fi Enabled for ThinQ® Control with iPhone / Android App	Yes
--	-----

Features

Capacity	1.7 cu. ft.
Power Output	
Microwave	950 W
Convection	1,500 W
Sensor Cooking	Yes
