

Amalfi Metal-Back Chair

amalfi-metal-back-chair

The Amalfi metal-back chair is made with high-density layered foam and a hand-cut and

Product Description

- Slim seat cushion is made using a proprietary application of high-density layered foam for hours of dining comfort.
- Synthetic chair cover is made from a composite that creates the crisp look of modern leather without the maintenance. Contains no added flame retardants and does not emit VOCs.
- One-piece metal base is hand-cut and welded from tubular stainless steel for durability, and chrome-plated for a mirror finish.
- Legs are fitted with non-marking nylon glides.
- Available in Cognac, White, Cobalt and Taupe.

Specifications - Units (Weight: lbs Dimensions: Inch)

Height	36
Width	21
Depth	23
Cube	6.14

Recommended Care

METAL: Dust frequently with a clean, damp, lint-free cloth soaked in mild soap and water. Avoid the use of chemical and abrasive cleaners, as they can damage the finish.

To restore the shine to your metal, soak a cheesecloth in a nonabrasive cleaner (like liquid dish soap) and rub the chrome component lightly until the original luster reappears. Dry the component with a clean soft cloth to remove any soap residue.

Iron or steel frames will rust if the finish is scratched or if your furniture is exposed to excessive humidity, particularly in coastal areas.

UPHOLSTERY: Avoid exposing your furniture to strong sunlight. Prolonged exposure to sunlight can fade the finish of your furniture.

To clean spots and stains, please follow instructions per the fabric cleaning code. An annual professional cleaning is recommended to keep your upholstery looking its best.
