

# A Smarter Way to Do Laundry

pureWash transforms the water going into your washing machine by infusing 100% safe, natural oxidation which dissolves and removes residue and cleans, sanitizes, and deodorizes your entire laundry.

pureWash brings large scale hospital technology into your home in a compact and easily installed system. Simply connect it to your washing machine once and pureWash automatically reacts to your wash cycle's operation. Regular use will save energy and money while keeping your laundry healthy and fresh.
