

QX620 QX SERIES

6.5", 2-WAY, SHALLOW DEPTH, IN-WALL LOUDSPEAKER

(1) 6.5" (165mm) High Excursion Aluminum Driver (4) 0.75" (19mm) Aluminum Dome Tweeters in Quad-Array

The QX620 is just one of many options in the QX series. Designed for in-wall installation, these speakers are perfect for any indoor or outdoor application where space is limited. This versatile speaker features a sleek modern appearance with a borderless aluminum grille which protrudes less than 3/16" (5mm) from the wall; it can also be mounted completely flush with one of our custom designed pre-construction boards, offering a subdued visual effect and making this speaker as unobtrusive as possible. Perfect for home theater and stereo, this speaker's high power-handling woofer offers high output over a broad range of frequencies while still maintaining a small footprint, offering a great no-compromise solution for designers and audiophiles alike. As with all QX models, this speaker comes equipped with a James Loudspeaker quad-tweeter array which delivers crisp highs over a wide dispersion angle, making these speakers some of the most versatile and effective speakers on the market.

The sealed cabinet design features all aircraft grade aluminum for strength, sonic performance, and suitability for outdoor/marine applications.

70V options available. For marine/outdoor applications, order the QX620M. Marine outdoor rating – IP65.

Size	15.395 h x 9.61 w x 3.875 d (in) 391 h x 244 w x 98 d (mm) depth w/grille 4.125 d(in) 104(mm)
