Terra Cocktail Table

3000-0241

Overall: 17"h x 38"dia

Finish: Bronze/Brass

Materials: Brass

Item Weight: 101 lb

The Terra Cocktail Table convinces the eye it is made entirely from natural wood, when in fact its surface is metal that has been wrapped over a hand-carved wood substrate and pushed into place to amplify a natural grain pattern. Once the dynamic ornamentation has been fully achieved, the top columnar portion is bronzed while the inset base is made of brass that has been lightly texturized. This is a truly artisanal piece.
