

AMBIENT LIGHT

LONG LIFE FILTER

ELICA'S EXCLUSIVE PLUS FEATURES

Star is the brightest hood in Elica's glittering constellation of range hoods. The spherical shape is dressed with hundreds of tiny cascading glass prisms, which softly reflect light and elegantly illuminate any room.

The compact size and sophisticated styling adds casual brilliance and the right touch of Decoration, without overpowering the kitchen or obstructing views to the outside. All possible due to Elica's patented Evolution system.

Above all, Star ventilates the kitchen with a 300 CFM blower that effectively removes cooking grease, heat, smoke and odours, with only a whisper of sound (0.3 sones at speed 1).

PLUS FEATURES

**AMBIENT LIGHT** - Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is quite unique, and represents one extraordinary point of strength for us.

**LONG LIFE FILTER** - One-of-a-kind odour filter, capable of regenerating itself and of lasting up to 3 years, while standard filters have an average life between 3 to 6 months. To maintain these characteristics, the filter only requires simple maintenance: wash every 2 or 3 months with hot water and mild soap (also in the dishwasher at 65 degrees) and dry in the oven for 10 minutes at 100 degrees.
