

The EBS1 is a European design that mounts into a cabinet above the cooktop with only a slim sliding drawer visible, fitting seamlessly into today's modern kitchen. The easy to clean design features bright LED lighting, powerful 400 CFM Max blower speed, while remaining quiet at 5 sones at high speed.

HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 in. static pressure, based on tests conducted in AMCA's state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.

* Where noted performance rating is not HVI certified but was established in accordance with HVI Standardized test procedure.

** Max. blower CFM indicates the performance of the hood blower in open air.
