

BEDDING & THROWS

Enter the world of high-end bedding with an ever-growing collection of luxurious quilts, lightweight comforters, and duvets with hand sewn button closures.

Bedding should be washed in cold water with mild detergents that do not contain bleach or other whiteners using a large capacity washing machine. Tumble dry on a low heat setting and remove immediately to avoid wrinkles.

Villa Bedding is prewashed before packaging to avoid products from shrinking and stiffening. Our Cotton and Linen products become softer with every wash. To preserve the beauty and integrity of our embroidered bedding, please dry clean only.
