60" COUNTER HEIGHT TABLE, MOCHA

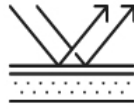

When considering casual dining tables, it is important to also think about dining height. With today's open concept living spaces, the range of suitable everyday dining options has significantly expanded. One consideration that is well suited to dining areas that can accommodate it is the counter height dining table. Measuring at 36" tall, counter height dining may seem only slightly higher than standard dining but this difference is enough to change the flavor of the space. This is especially the case as it relates to entertaining and gathering in what has become the social hub of the home. In the case of Kafe, the Tall Leg Dining Counter Height Table is the perfect tool for the job. Sized to seat up to six chairs comfortably, it's solid wood construction means that it can withstand the rigors of everyday family life. To literally top it off, we have added our KinGuard performance finish as an added safeguard against common everyday dining spills. It is available in both the Mocha finish (shown here), or the lighter toned Latte stain.

- Alder and Select Hardwoods

Solid Wood - Made using genuine solid wood construction

Kinguard
Performance Finish
- Featuring
exclusive Kinguard
Performance Finish
for added
protection against
watermarks and
spills
