The Hamilton
Collection

WELCOME

Welcome to the world of Hammary-furniture designed and crafted to satisfy the most discriminating of customers. From humble beginnings in 1943 until today, Hammary provides designs, styles and quality that homeowners appreciate and are proud to own.

Founder Hamilton Louden Bruce started his company by leasing a small building for \$15 per month and, with the help of two other men, began manufacturing canvas-covered lawn chairs. The company name, Hammary, was created by combining his own name, Hamilton (Ham) with his wife's name, Mary.

Four years after Hammary began, the initial canvas chair line was discontinued and production began on occasional tables made from various types of woods and leathers. This decision was prompted when Mr. Bruce sold \$200,000 in orders for the company to produce occasional tables.

Today, Hammary offers a variety of styles of coffee tables and end tables to fit whatever lifestyle you have or choose. The Hamilton Collection is smaller scaled occasional tables with different style categories comprising of transitional, traditional to modern in several finishes from caramel color to dark tobacco finish with distressing. Mixed media components of antiqued silver metal, classic wrought iron, concrete top inserts, slate tops and beautifully selected hardware to complement each category selection. Whatever your style Hammary has it in the Hamilton collections.

Care & Cleaning

CARE & CLEANING

Due to the variety of wood species and materials used in Hammary furniture, it is recommended to dust with a soft, clean cloth slightly moistened with water and then dry completely with another dry, clean cloth.

Always rub in the direction of the wood grain. Keep cigarettes, hot dishes, moisture and harsh solvents, such as nail polish and alcohol away from furniture. Do not place beverages directly on non-glass or non-laminate areas. Use pads beneath accessories or when writing or eating. Remove spills and smudges immediately. Pliable materials, such as plastic or rubber should not be left on wood surfaces; they can damage finishes. Furniture should not be placed near heat or direct sunlight.
