### CertiPUR-US® CERTIFIED

Contains certified flexible polyurethane foam.

### TEMPERATURE CONTROL

A mattress that uses specialized materials to regulate surface temperatures. Enables a more thermo-neutral sleep experience.

### GEL POLY-FOAM

The comfort of foam enhanced with the stabilizing and initial cooling properties of gel.

### NANO COIL

System provides the comfort of foam with the durability of steel. Features an additional upper layer of individually wrapped coils to provide lasting comfort.

### POCKET COIL HD

A high-density coil system featuring independent response coils to optimize durability and individualized comfort and support.

### ADJUSTABLE FRIENDLY

A mattress compatible with an adjustable base. Controls comfort and support with personalized positions for sleeping, watching TV, or reading. Can also reduce snoring and acid reflux.

### FOUNDATION

Standard 9" profile or 5" low profile. Solid wood base that extends the life and improves the performance of the mattress.

### MADE IN THE USA

Handcrafted in the USA since 1984.

### WARRANTY

Supported by an industry-leading manufacturer's warranty.
