

30" OBLIVION SMART INDUCTION COOKTOP WITH TEMPERATURE-CONTROLLED COOKING

Signature Features

JICT730SB

TEMPERATURE-CONTROLLED COOKING

Surpass the limited control of traditional power-level cooking and get consistent results with JennAir Temperature-Controlled Cooking. Automatically maintain an exact temperature between 120°F and 400°F. Sensors monitor temperatures and automatically adjust to prevent overheating, so you're free to manage the kitchen and entertain without worry.

SMART COOKTOP WITH GUIDED RECIPES

Connect the JennAir® App to your device and indulge in a new culinary adventure with hand-picked, step-by-step mouthwatering recipes, timers and more. Preheat your pan while you prep, get ingredient alerts, then automate cook times and temperature changes. Monitor your cooktop and change temperatures directly from your device. Command it all from the palm of your hand using the JennAir® App.* Look and learn your way to unforgettable dishes.

*Appliance must be connected. WiFi & App Required. Features subject to change. Details and privacy info at jennair.ca/connect.

PERFORMANCE BOOST

Water reaches a boil 2.5x faster than our electric cooktops.* Get crispy chars and high heat sears by boosting power above the maximum power level for up to 10 minutes on as many as three zones at once.

*Compared to JEC3536HS and JEC3536HB.

PRECISION COOKING PRESETS

Harness the precision of induction by selecting preset cooking modes directly on the cooktop. Select Boil to quickly bring water to a rolling boil, integrated sensors auto-adjust to help limit overboiling while you prep. Select Simmer for optimal temperatures to slowly cook stocks and sauces. Use Sauté for more intense heat in stir-fries and fajitas.

TRUE FLUSH INSTALLATION WITH OBLIVION GLASS

Explore limitless design options with the flexibility to install flush to the countertop. True Flush Installation sinks into its surroundings, creating a sleek and striking surface.*

*Applicable only to Oblivion Black Glass models.

AUTOMATIC PAN DETECTION

Each sensor-driven element activates upon contact with induction cookware and automatically switch off when cookware is removed.

FLEX-CHOICE™ ZONES

Send the power of induction to every corner of your cookware. Flex-Choice™ Zones feature rectangular elements with even heat edge-to-edge, unlike traditional round bridge elements. Twin elements can be used separately at different temperatures for smaller dishes or combined into one large zone to evenly heat rectangular griddles.

VOICE CONTROL

Command your cooktop with Google Assistant-enabled device,* to stay hands-on while hosting or prepping. Simple voice commands let you set cooking modes for each zone and adjust the heat as needed.

*Appliance must be set to remote enable. WiFi & App required. Features subject to change. Details and privacy info at jennair.ca/connect.

CONTROL LOCK

Control Lock helps prevent unintended use of the cooktop and enables worry-free cleaning of the surface and controls.
