Maddie Cabinet Natural

Meet Maddie: a little Provence, minus the plane ticket. Inspired by arched doorways, its glass-front doors with fine mullions give your everyday essentials a gallery-like spot. Keep glassware, books, or collectibles visible up top, then hide backup supplies behind closed doors below. A solid oak frame brings steady structure, while oak veneer over MDF keeps surfaces clean and consistent. Tempered glass completes the view—practical, too, for real life, every day and easy to live with.

- Provence Arches: Arched door silhouettes and fine mullions bring a collected European feel, balancing airy glass with grounded panels for a calm profile.
- Oak And Glass: Solid oak frame pairs with oak veneer over MDF panels and shelves, finished with tempered glass to keep the look light.
- Steady Structure: The solid oak frame provides reliable support, while veneered surfaces help resist everyday wear and keep the finish looking consistent over time.
- Showcase Storage: Glass-front doors create an easy display zone, while closed-door storage keeps everyday backups tucked away and the space feeling orderly.
