NOTES

Rocking motion enhances relaxation
Power control allows you to adjust between sitting and reclining
USB port built into power control for convenient charging
Pad-over armrests enhance comfort and provide additional forearm support
Seat features divided chaise pad for added comfort and refined look
High-divide back cushions have distinctive look and cradle the head, neck and shoulders
Biscuit-tufted back cushions the lower back
Built to last with our DualFlex Spring System™—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability
High-density cushions consist of a high-resiliency, high-density polyurethane foam core with a soft fiber wrap that ensures comfort as you sit and recline with a soft fiber wrap that ensures comfort as you sit and recline
Available in durable, cleanable performance fabrics will withstand everyday use by an active family
Available in over 250 fabrics to suit any décor
Removable back allows for easy lifting and maneuvering through doorways
Choose whether to glide or recline depending on your activity and mood
Handle-activated recline system allows you to manually adjust between sitting and reclining
Footrest easily lowers when you apply pressure in a downward motion
Power control independently adjusts the headrest and recline for a personalized sit
Home button returns the headrest and footrest to their original positions with one touch
Power allows you to smoothly recline to any position.
A single USB port is included on each power button control on styles with arms.
Lower the footrest by applying pressure to it in a downward motion. Lowering the footrest with the handle can damage the recliner.
The power control allows you to independently adjust the recline and headrest.
A separate home button returns the headrest and footrest to their original positions with one touch.
A USB port is included on the power control for powering electronics.
Zero draw technology only uses power when the USB port is in use.
