Constance Mirror Silver

A sunburst that radiates from the inner edge out. Deeply ridged lines fan across the oval frame of the Constance mirror, giving it a jewelry-like quality that catches light from every angle. The cast aluminum frame holds the pattern in crisp, consistent relief, turning a practical mirror into a considered object on a wall or surface. An oval form keeps the look soft and balanced. Reflection, framed like a piece of jewelry.

- Radiating Ridges: Deeply ridged lines fan out from the inner edge in a precise, consistent sunburst pattern that gives the oval frame a dynamic presence.
- Cast Aluminum Frame: A cast aluminum frame holds the radiating ridge pattern in crisp relief, giving the mirror a jewelry-like quality and a considered, sculptural feel.
- Catches the Light: The fanned ridges catch light from every angle, adding movement and depth whether the mirror hangs on a wall or rests on a surface.
