Libby Langdon Ellerson Dining Table Base 6323-TB

Libby Langdon for Fairfield

Description

The Ellerson dining table base in polished nickel was designed to be paired with the blonde live edge and other live edge dining table tops, blending contemporary curves with a natural organic wood influence. The base juxtaposes, the bold, bright metal finish with soft, bowing curves, its a lean and sleek profile, that can work in styles from contemporary all the way to coastal. The Ellerson dining table base would also look fabulous with the darker, live edge dining table tops and would give a great contrast to the richer natural wood materials.
