

LYNDA

CHAIR | CM6736DG-CH

DETAILS:

With the Lynda chair, you get a simple silhouette that brings a rather compact and stylish appeal to your living room. Everything looks contained within the confines of this piece, framed by the tall rounded curved arms and loose pillow backs. The soft chenille fabric is deliberately chosen in a neutral shade to outline the structure of each piece. Dark wooden legs help elevate the piece and focus the attention on the subtly tufted seating and same-color accent pillows.
