

FINISHING FEATURES

1 EXCEPTIONAL FINISHING
Zippered back, seat cushions, and pattern matching improve the product's finish.

2 SLICK HOLLOW CONJUGATE
Back and toss cushions use hollow, twisted fiber with a silicone coating to reduce clumping.

3 SEWN BAFFLES
Fibre fill cushions have horizontal baffles to minimize shifting and enhance resiliency; silicone coating reduces clumping.

4 FEATHERSOFT SEATING
200 thread count percale cover

- Prevents feathers from migrating through the fabric
- 50% small waterfowl feathers and 50% fiber blend offer the comfort of feathers with the durability of the fiber.

5 HIGH DENSITY FOAM
Dense foam with a weight of 2 lbs offers enduring comfort and support.

6 FULLY PADDED FRAME
The outer back, sides, and front are cushioned for durability and tailoring.
