

# MOE'S

## Daisy Side Table Green

Plinth but make it pop. A bold square top with rounded edges sits on a thick pedestal base, creating a clean shape that's equal parts playful and poised. Finished in a high-gloss lacquer that's rich and refined, it pops with personality. Small in scale, big on presence.

- **Squarely Substantial:** A substantial square top with rounded edges adds a bold visual weight, a solid presence, and a touch of personality to any space.
- **Statement Stance:** Supported by a single, robust cylindrical leg, it showcases a minimalist design that makes a strong statement.
- **Lacquered Luminosity:** Finished in a vibrant green lacquer that adds a pop of color and a refined sheen that catches the eye.
