Description

Wrap-around supple leather and a shallow seat depth make this the most comfortable swivel glider we've ever made. Covered in both leather and fabric, it has a unique blended look that can be fully customized with any fabric and leather in our line. (see the Custom Blends order form below for details about how to order this). The padded back is specifically designed to snuggle you in softness and the Blend Down cushion offers the perfect seat. If you are shorter in stature, you will truly appreciate the scale of this chair! Nail head trim is standard, but also available ...
