Butler Specialty Company! Discover endless possibilities to express your style and create a space that truly feels like home.

An adjustable height stool offers incredible versatility and adaptability to different spaces and uses.

Whether you're working at a desk, sitting at a kitchen island, or pulling it up to a taller bar, the ability to adjust the height ensures a comfortable and customized fit for each setting. This flexibility also makes it ideal for shared spaces, allowing people of different heights to find their perfect position, enhancing both comfort and ergonomics. Plus, its adjustable nature adds a touch of interactive fun, making it easy to adapt as your needs or the rooma™s purpose changes, much like smaller-scale furniture that fits into various spaces in your home.

A footrest on a stool provides ergonomic support, reducing pressure on the legs and promoting better posture, making sitting more comfortable for extended periods by encouraging natural alignment and reducing fatigue.

Genuine leather is an excellent seat material for stools due to its durability, comfort, and timeless style. Ita™s easy to clean, ages beautifully, and resists wear, making it ideal for frequent use.

Weight Capacity: 200 lbs

Ideal for use in Kitchen, Living Room, Home Bar or Game Room, Bedroom, Office, Workshops or Studios

To clean, wipe with a dry cloth; dust regularly. No harsh chemical cleaners that can damage the materials
