## The Element

---

The Element is the slimmest adjustable base on the market. Designed to integrate seamlessly into your existing bedroom furniture and elegant enough to stand on its own - it will take your sanctuary to the next level.

## Built in Massage Therapy

Each of the three intensity levels can be set for 10, 20, or 30 minutes of muscle relaxing bliss.

## Interchangeable Accessories

We offer legs in various heights, finishes, and materials allowing you to customize the look and feel of your base.

## USB Ports

Our USB Ports are positioned for optimal charging and access to all of your electronic devices.

## Design Comes First, Second and Third

Your Ergomotion base fits inside any standard bed frame you choose. It is also designed to beautifully stand on its own.

## Wall Saving Feature

Our wall saving technology allows you to stay in place next to your nightstand, even when you raise the head.

## Experience Zero G

By elevating your legs above your heart, the Zero G preset will increase circulation throughout your body, raising those pesky problem areas.

## Who we are.

---

At Ergomotion, we lead the adjustable bed industry by continuing to design products that redefine how we enjoy our homes. Adjusting to lifestyle changes, reimagining how we interact with our living spaces, designing products that are truly inventive, providing a level of service that is \*the\* benchmark in our industry, and making our homes more functionally beautiful. We design to differentiate from the expected. We engineer to innovate. We create to make beauty. We strive to provide support that is second to none. And we are passionately focused on redefining how our lifestyle, and our style, can seamlessly blend to make the very best experiences imaginable.
