Cool Twist® Gel Foam

Cooling gel is swirled directly into a breathable foam designed to promote airflow and heat dissipation.

532 Continuous Support® Innerspring

Serta's most popular innerspring system features continuous rows of coils that run head-to-toe. This design works to provide excellent body support while helping to reduce motion transfer from one sleep partner to the other. Plus, **Total Edge® Foam Encasement** provides excellent edge support while extending the sleep surface.
