Product To Product Pairs

Protect your investment and enhance the sleek look of your 36" KitchenAid® or JennAir® cooktop downdraft system with this integrated cooktop trim kit. Crafted from high-quality, heat-resistant aluminum, this trim kit safeguards the edges of your glass ceramic cooktop from unsightly chips and damage. This frame ensures a perfect fit with your KitchenAid® or JennAir® cooktop downdraft. Installation is a breeze thanks to the innovative interlocking system - no tools are required! Even better, it's retrofittable, so you can add this protection at any time. The modern and minimalist design seamlessly complements the timeless aesthetic of the compact KitchenAid® or JennAir® cooktop downdraft systems, providing a polished and professional finish. This trim kit is designed for top-mounted installations.
