Product Description: The Banyon Bay End Table is a compact and stylish piece, perfect for complementing a modern living space. Featuring white oak solids and veneers with brushed brass metal supports, this end table boasts a multi-step Desert Oak finish with wire-brushing and cerusing. The rectangle shape with rounded corners gives it a soft, contemporary appeal, while the one fixed shelf provides additional storage or display space. The plinth base offers stability, making this end table both functional and decorative. Ideal for urban, coastal, or mountain homes, its modern design blends effortlessly into a variety of living room settings.

Collection Features: Developed with an eclectic mindset, Banyon Bay is youthful and cool, combining precise geometry and gentle contours with natural textures and materials. Delivering smooth contemporary lines, this modern collection is a perfect fit for a casual lifestyle, moving effortlessly between urban, coastal, and mountain settings. Modestly scaled, this collection features white oak veneers and solids in a light Desert Oak finish, accented with an authentic mix of organic materials, creating a cohesive, casual look.

Status: New

Finish: The multi-step Desert Oak finish features wire-brushing and cerusing. Stainless steel legs feature a soft Brushed Brass finish.

Features: Rectangle shape
Rounded corners
Soft Brushed Brass metal supports
One fixed shelf
Plinth base

Material: White Oak Solids, Oak Veneers and Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
