**Color:** Greige Oak

**Number of Shelves:** 0

**Number of Drawers:** 0

**Number of Leaves:** 2

**Style:** Transitional

**Finish:** Grays

**Brand:** Hooker Furniture

**Product Description:** A neutral color palette and angular forms create a soft modern expression in the Affinity Rectangle Pedestal Dining Table. Crafted of Quartered Oak Veneers, the table has a tactile greige sand-blasted finish. With two 18-inch leaves, the table extends to 114 inches with both leaves in place and will accommodate 6 guests without leaves, 8 guests with one leaf and 10 guests with both leaves. A three-piece geared wood table slide allows you to add or remove leaves.

**Collection Features:** Soft, rounded forms combine with sand-blasted greige and antique white finishes to create an inviting transitional boutique collection in Affinity. The main finish for the 20-piece collection of bedroom, dining room, occasional, accents and home entertainment is a wire-brushed greige (gray/beige) on quartered white oak. Pewter and antique white hardware and soft linen fabrics add intrigue.

**Status:** Active

**Finish:** Greige sand-blasted finish on quartered oak veneers

**Material:** Hardwoods

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

**Important Use Information:** We recommend using coasters, placements and trivets when using hot containers with this item. It is also recommended to provide quick cleanup for any spills to minimize exposure to moisture. Doing so will prolong the life and look of the item and provide many years of the quality you expect.
